To Whom It May Concern;

RE: Fortius Endorses PAIC

Fortius Sport & Health has carefully reviewed and discussed the need for and benefits of the proposed Pacific Academic Institute of Chiropractic (PAIC). This new academic institution for education and research in British Columbia related to chiropractic will focus on spine related health and healthcare challenges.

Prevalence of spine related diseases and disabilities have been identified among the top ten healthcare challenges in Canada and Internationally. With our own focus on related Chiropractic, Physiotherapy, Registered Massage Therapy and Sports Medicine healthcare, Fortius Sport & Health enthusiastically endorses PAIC's objective to strengthen education and research related neuromusculoskeletal and spine related health sciences in B.C. for Western Canada and beyond.

We are looking forward to the opportunity to collaborate and to leverage our efforts going forward.

Thank you.

Sincerely,

Craig Thompson
President and CEO
